## RENT CONTROL

In a recent speech Don. Brown M.P. had the following to say in connection with Rent Control Legislation.

On Thursday November 3, the Hon. Douglas Abbott, Minister of Finance, made a statement to the House of Commons regarding Rent Control which has caused considerable discussion especially among persons who rent, since it permitted an increase in rents of houses and apartments which are still under control.

Now, it should be remembered that the provinces under our constitution have the full authority and responsibility of property and civil rights. The rights of property owners and those who rent are defined in Ontario by the Landlord and Tenant Act. At the outbreak of the last war the Federal Government assumed control of rent, prices, and wages for the purpose of protecting our people during the period of the war and for the purpose of seeing that our people were encouraged to obtain a maximum of production of war materials without having to fear the unscrupulous person who would make an unreasonable profit during a period of national emergency. Then, too, it was to protect the families of those who were serving in the armed forces.

Before the General Elections of June 27, the Government stated that it was going to endeavour to de-control rents in an orderly fashion. The Conservatives had been demanding that all controls be removed. This of course would remove all controls on rentals. The Government did not feel that it could do this, but it stated that it was going to remove controls as soon as it could - but in an orderly fashion.

One of the great difficulties at the present time is that there

## Are Victims Of Wholesale Thievery

A well organized gang is believed responsible for breaking into and ransacking nine Cooksville, Ont.

homes in one night. Thieves escaped with \$1,200 in cash and bonds. Above, from left are seen Lorne

White, Mrs. Marie Clement, and Mrs. W. Wood, three of the victims.

is a need for control of rents in some provinces and no need in other provinces. Then the need varies within the provinces themselves. The large urban centres such as Windsor, are very short of houses, while the smaller rural centres have not the same demand for them. I am inclined to believe that there should, therefore, be some system of control worked out to apply to various municipalities. This of course could only be done through Provincial Governments which are much closer to the people and to the problem—and which of course is the governmental body having the authority to do so.

Mr. Abbott explained that on October 23, 1949—over a year ago—he wrote to each of the Provincial Governments, advising them that the Federal Government was prepared to vacate the field to any provinces which might decide to undertake control of rents. He also offered to make available to any provin-

## ANNIVERSARY

Mr. and Mrs. Remeo Jolicoeur of LaSalle were pleasantly surprised Friday evening on the occasion of their 20th. wedding anniversary. During the evening friend dropped in to give their good wishes and congratulations.

Card was played and refreshments was served.

## SAFETY PATROL

Did you know that LaSalle and Community schools have a Safety Patrol to protect your children and mine?—But if the parents of this community do not co-operate with the boys there is not much we can do to make it a success. One problem above all others is riding double on bicycles to and from school.

Please help us by helping yourself.

## MANY THANKS

LaSalle Chamber of Commerce thanks Police Officer Don Fleming for the fine handling of the traffic for the funeral of Mr. Adriene Gignac. Also to Officer McDonald of the provincial Police and to the Amherstburg Police who led the way to the cemetery.

## YOUTH CENTRE

The LaSalle Youth Centre held an executive meeting last Sunday for the purpose of working out a project to be known as the LaSalle Youth Centre Carnival and Agricultural Fair for the coming summer. Anyone interested may contact any of the executive committee. We need your help.

The thing generally raised on the city land is taxes.

## RENT

es the records, information, experience and staff of the rental administration and also to pay the cost of any provincial rental administration for one year.

No province has accepted the Federal request. That is except

Newfoundland, which had a form of Rental Control which it retained when it came into the Confederation.

This could not be construed as an attempt of the Federal Government to shirk its responsibility—but has been brought in the focus by an action instituted in the Supreme Court of Ontario seeking to establish the fact that

the Federal Government has no jurisdiction over control of rentals. In order that a final decision may be made the Government has, therefore, decided to submit the question of the validity of the rental regulations to the Supreme Court of Canada, in the hope and expectation that a decision will be given before the present legislation expires. Which is March

31st. nekt.

If it is determined that the Federal Government has jurisdiction, parliament will then be asked to extend the rental regulations. But Mr. Abbott made it clear that the Government intends to proceed in an orderly way towards the eventual withdrawal of all controls.

On the other hand, if the Supreme Court of Canada finds that the Federal Government has no authority over rental regulations then a very serious situation will arise so far as tenants are concerned. To meet this eventuality, the Minister informed the House that he was writing to each province to be prepared to either impose provincial controls or drop controls entirely. The Federal Government at the same time was offering to assist in the preparation of what might be termed "stand by" legislation, if any province wished to present such legislation to its own legislature.

...Your **Sow!**  
is like a **Cow!**

A nursing sow is a lot more like a cow than most people realize—even her owner! To grow a big, strong, healthy, thrifty litter she has to provide around a pint of good rich milk per pig per day. Figure that out for 10 or 12 pigs, and it adds up! So she needs body-building, conditioning feed *before and after* they're born... a milk-maker, too. Grain alone won't do the job right.

◀ If you have good grain, make the most of it—balance it, fill in its weak places with Sow & Pig Chow. Just mix it with your chop, and let the little pigs have it as well as the sow.

▶ If you're short of grain, or your grain is poor, feed both the sow and pigs Pig Growena just as it comes from the bag. (Many good hog men feed one bag per pig, after weaning, to ensure a good start.)

Want eggs? Then feed a mash that has "what it takes" to make them—and keep on making 'em. We stock and recommend

## WE DID IT

\* \* \*

The way some people take credit for everything reminds me of the story Fr. Conrad sent.

A flea and an elephant walked side by side over a little bridge. Said the flea to the elephant, "Boy, we sure did shake that thing!"

## Fashions:

Ankle-length is the new line of this evening dress that certainly is reminiscent of another fashion cycle. The fabric is a beautiful rayon damask in a soft shade of blue, and has pannier pockets made in one with the kerchief point panels that mark the front of the skirt. Fly away points are at the ends of the bodice which is cut to hug the figure. There is added elegance in the long black velvet gloves and black velvet shoes.
